Location: Imara Daima, Nairobi County, Kenya

PROFILE

A results-driven IT professional with expertise in software development, data analytics, cybersecurity, AI, cloud computing, and IT infrastructure. Skilled in Python, data management, and business intelligence, I analyze complex challenges and create data-driven solutions. With leadership experience in IT project management and digital transformation, I optimize business processes and drive efficiency. My diverse background in logistics, administration, and IT consulting highlights my adaptability, innovation, and strategic contributions to technology-driven industries.
